

Working student (m/f) IT

We are a fast growing Start-up technology company. Started as a university project of students of the University of Karlsruhe, we first rocked the HackFwd's Pitch and then Seedmatch. Meanwhile, we sit in Cologne and we are a team of 20 people who jointly pursue the vision of

"Being the most valuable communication channel between companies and their customers."

Our software solution enables companies to get in contact to their customers by seeking, evaluating and reacting to non-public feedbacks of the consumers that they can give via Smartphone and iPad terminal.

IT

Cologne

from now on

20h/Week

Responsibilities

As a working student (m/f) IT you will play an important role in our Product Development team, currently consisting of 6 developers. Through your work in Backend, you will be responsible for our web application's functional design and will mostly use PHP. Teamwork is essential as you will work closely with the other developers. As a team, you will ensure that our software solution is always up to date and being continuously developed.

Requirements

- ✓ You're studying Computer Science (or something similar)
- ✓ You're "fluent" in various programming languages and have a well-founded knowledge of PHP, Java or MySQL
- ✓ You program everything you get your hands on
- ✓ You have already taken an active part in various projects and done some developing of your own
- ✓ You solve problems analytically and can understand complex themes easily

Benefits

Common Coding

You can code with our founders who studied IT themselves and have coded since their youth. You can develop our software with them and learn from them too.

Corporate culture

With us you encounter an open corporate culture with flat hierarchies and a communication on eye level.

Nerf Guns & Table football

We have lots of fun at work, especially in Nerf battles and at table football matches.

Office

Our office is centrally located and easy to reach by public transport. We have a great view of the Cathedral!

Catering

Coffee, tea, water and fresh fruit...as much as you like!

Equipment

Fast PC with solid State Disk and Dual Screen.
